## ABOUT US

Below Ground Solutions Ltd is an established drainage, water and utilities company with a wealth of experience within its management and team members. Based in Taunton but covering the South West regions, we have gained the reputation of a good reputable company and are well known within our sector.

We recognise the stress drainage, water and utilities problems can hold for our customers, so our main aim is to take the stress away and deliver outstanding results being extremely focused on the clients unique needs. We take pride in being that company that finds a way to resolve and develop a design in the most challenging of circumstances, leave all the investigation, design, applications and installations to our trained teams, who can deal with the whole process from start to finish no matter how big or small the job may be. We are confident in the quality of our work and the services we offer and our work is guaranteed.

**DAN HUDSON**  
CEO/Director of Business

Dan is the company CEO and Director for Below Ground Solutions Ltd, He started the business in 2017 after previously working the industry with other companies, which included Manager of Combined Services, Regional manager at Lanes, Regional Manger of Ansa Utilities, Supervisor of works at External Services Group. All of these roles gave Dan the experience required to create a productive company that is committed to quality and transparency for all of its clients.

**LEE WOODS**  
Director of Operations

Lee has been with Below Ground Solutions Ltd since it began in 2017 and has played a key role in running the business. Lee started within the drainage, water and utilities industry over 18yrs ago, and has experience in a vast array of roles in this time. Lee's growing experience led to him being appointed as a Director of the business in 2022. Lees expertise include health and safety awareness, problem solving, customer services, project management and company branding.

With  
**300+ installs**  
under our belt,  
you're in  
good hands!

## RETAILER OF UKS LEADING TREATMENT PLANTS

Below Ground Solutions Ltd is one of the largest installers of domestic and commercial treatment plants in the SouthWest. This has gained us retailer status on most major UK brands, which allows us to offer our clients reduced retailer rates far lower than most builders merchants. All tanks supplied by us comes with free installer assistance.

## TREATMENT PLANT INSTALLATION

As one of the most established installers in the SouthWest, Below Ground Solutions use this experience to ensure every installation job is approached in a well designed and careful manner. We went direct to the manufacturers to gain approved contractor status with detailed understanding and full training on their products. From 4PE to 150PE we have been trained to install, commission and service most UK brands.

## NEW SEWER CONNECTION

New Sewer Connections can cause all kinds of headaches, as there always seems to be endless forms and applications that need to be applied for, such as Section 106 (consent to charge), section 50 and section 171 (road opening licences). Here at Below Ground Solutions Ltd, our new sewer connection teams are streetworks and highways accredited experts. Who are able to carry out all applications and installation for the connection of a new sewer to your property, giving you peace of mind and one less thing to worry about. Our working relationships with the councils and water authorities allow us to make the process swift and hassle-free.

Below Ground Solutions Ltd have developed a well respected connection with councils and water authorities, which allows us to work directly on their asset network.

**Wessex Water**  
YTL GROUP

## WATERMAINS

Below our feet is a network of water pipes that we can't see or inspect. The main problem that can arise with water mains is a leak developing, which can lead to loss of water pressure, severe damage to the property and eye watering high water bills. If you have a leaking water main at your property there are several detection methods and repairs that we provide:

- ✓ Acoustic leak detection
- ✓ Pressure testing
- ✓ Point repairs
- ✓ Impact moling
- ✓ Full or part relays

WIAPS is the largest of the six UK Approved Contractors' Schemes. WIAPS is administered by Water Regs UK on behalf of 15 UK water companies. WIAPS provides water industry backed accreditation to qualified plumbers and other sector workers, including groundworkers.

## OTHER SERVICES

Due to our vast experience in pre fabricated tank installation, we have become approved installers for several nationwide companies.

Working with

to provide independent  
installation service

SAVE  
25%\*

on ground work costs of  
a new underground  
LPG tank

BEFORE

## LPG TANKS

**Are you looking to remove an oil tank and change to LPG, or do you have an above ground LPG tank you'd like to relocate underground to save space?**

We can save you approx 25% on ground work installation costs of a new underground Flogas storage tank, if combined with the installation of an off mains drainage system.

THE TIMES

## UNDERGROUND PODS

Want to gain extra space without building up? You could gain an extra room by simply installing a modular basement unit with 20 year warranty guaranteed. In partnership with UndergroundPods.com we can design, supply and install any size bespoke modular basement. Recent installation projects have included home offices, gyms, wine cellars and the occasional man cave.

## SERVICING

Under the general binding rules all off mains sewage systems need to be maintained by someone competent, and so we offer a service where you will receive an annual email and call offering our service package. Services are undertaken by tank manufacturer approved and trained service engineers, full diagnostic report given on completion for your records.

## COMMERCIAL

As well as domestic installations we can design supply and install larger commercial treatment plants and pump stations. Our engineers are trained to work within deep excavations utilizing shoring techniques to ensure safety is a number one priority.

## WHY CHOOSE BELOW GROUND SOLUTIONS LTD?

Could not have hoped for a better job! Everyone involved in the project exceeded my expectations. They were polite, instructive, professional and hard working under some trying conditions, nothing was too much for them to do to. The job was completed on time and the location left in a condition surpassing what I could imagine. I have no hesitation in recommending Below Ground Solutions.

– Mark, Somerton

Fab job, professional, fast proactive response to any questions and very competitively priced, couldn't have wished for a better company to do the foul mains connection. Guys on-site were great, hardworking and cleared away really well. Thanks to all the team.

– Eli, Langport

We would highly recommend this company. They are reliable, polite and hard working. Lee and the team explained everything they were doing and left the site clean and tidy every day. The work was done efficiently and we are thrilled with the results.

– Katie, Torquay

I highly recommend Below Ground Solutions. Dan was extremely helpful and responsive, taking on this urgent job of connecting the property to mains drainage at short notice and even managing to bring the work forward from the initial plan. The team who did the work at the site were also very hardworking and professional, arriving promptly, keeping me updated with the progress and completing the work within the suggested timeframe. I wouldn't hesitate to use this company again.

– Ruth, Exeter

We recently had our septic tank disconnected, and were connected to the main sewerage system. The whole process was carried out smoothly and efficiently. Dan was very helpful, clearly explaining the process, timescales etc, and responded quickly to our queries. The team who carried out the work were very friendly, efficient and considerate of ours, and our neighbours' needs. They did an excellent job, including tidying up and making it good after, all completed well within the timescale estimated. I would highly recommend them.

– John, Minehead

I had a very difficult situation over Xmas period. Below Ground Solutions went beyond what was needed. Expert advice, knowledge and quick work. After care has been excellent.

– Cecilia, Taunton
